

September the 20<sup>th</sup> , 2024

To whom it may concern:

We hereby confirm that all the dispositions have been taken by Comepa Industries to conform to the REACH regulation.

In order to conform to REACH, Comepa Industries recognises that downstream users will need to have assurance that our products conform to REACH. A product conforms to REACH if all the substances in this product are covered under one of the following clauses:

- They are registered by Comepa Industries or by a supplier to Comepa Industries or;
- They are pre-registered by Comepa Industries or
- They are exempt from REACH, as listed in Annexes IV or V of the REACH regulation or.
- They are supplied by Comepa Industries in quantities whereby less than 1 ton is placed on the market in the European Union each year, and therefore do not require REACH registration.

We do not manufacture “substances” or “preparations” and our articles do not involve the “intentional release of substances”. Accordingly, we foresee no registration or pre-registration or Authorization requirement for the products we supply.

Nevertheless, according the article 33, we have to inform you that some of our parts uses brass threaded studs : they may include Lead (CAS 7439-92-1) in small proportions (0.05% upto 4%) as alloy substance for the brass thread turning cut from our suppliers

Best regards,

Fadela Guendouzi
